High Quality and Reliability All for your Business Success

We Think and Work Globally

Dear Business Associate

We would like to introduce our company Airtron Engineering that has been in business Air Conditioners Dealer, Sales & Services for many years. We have been an established and popular company with an excellent track record for the best customer satisfaction. We have never compromised on the quality and the services provided to the customer. We believe in keeping the customers happy and providing them with products at a very competent price. We have an excellent staff who will guide you with their best ideas by keeping in constant touch with your company and informing about the market trends.

We Have Successfully completed several and many on-going projects in and around Pondy & Tamil Nadu.

Why Airtron Engineering

The Airtron Engineering Difference logo when it comes to cooling and heating your home, you're not just buying a furnace or air conditioning unit, you're buying a company, a customer service team, the quality and integrity they represent. Whether it's an emergency repair, an upgrade and replacement, or a brand-new installation, it's the total experience that counts, and that's where Airtron Engineering excels!

Whatever your situation, Airtron Engineering highly trained professionals will educate you about your options and help you decide which solution is best for your needs and budget.

We've been part of the local community for more than several years. And we're proud to stand behind our air conditioning and heating products (ooty and Kodaikanal) and our work.

Air Conditioners

Technician tests air conditioning unit stay cool this summer even on hot and humid days with the right air conditioning solution for your home. Our highly trained professionals will help you decide what works best for your requirement and your budget.

Airtron Engineering offers a full range of efficient air conditioning units, from full central air systems to room-specific models. We also provide air purification and air quality systems that can be installed as part of your system. Our systems' features offer various levels of comfort. For example, multistage dehumidification takes the mugginess and stickiness out of the air while it cools the temperature.

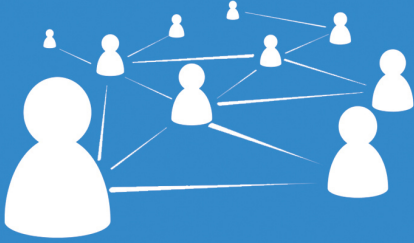

Key Advantages

The top benefits for installing air conditioning include

- Reducing allergens and controlling air quality by not leaving windows open for dust, pollen, mold, etc.
- Providing greater comfort in the summer months by maintaining an ideal temperature for sleeping and living
- Controlling moisture and humidity
